

Chronic Pain Management Program

Information for GPs

COORDINARE – South Eastern NSW PHN, in conjunction with NSW Agency for Clinical Innovation (ACI), is offering small group education programs targeting those patients suffering **low to moderate** chronic pain for more than 3 months. To meet the needs of patients and ensure COVID safe program delivery, the Chronic Pain Management Programs (CPMP) have been adapted to meet COVID-19 group gathering requirements and an online program is now being offered. Programs will run throughout the 2021-2022 financial year in Batemans Bay, Bega, Bermagui and Goulburn, dependent on pandemic guidelines.

Suitable patients	Exclusions
<ul style="list-style-type: none"> • Patients experiencing chronic pain >3 months and/or beyond the normal healing time of an injury resulting in declining functional and psychological well-being • Patients with an Orebro Musculoskeletal Pain Questionnaire - Short Form (OMPQSF) score of ≥ 50 • Low to moderate pain complexity • Ability and willingness to attend all sessions • For face to face programs - Independently mobile • For online program – Computer literate and internet connection 	<ul style="list-style-type: none"> • Patients undergoing active treatment for cancer, infection or fractures • Patients receiving high dose opioids (>60mg morphine equivalent per day) • Workers compensation, third party, and motor accident injury claims

The program consists of:

- Face to face: a 3 hour face to face group session each week for 6 weeks OR
- Online: 2 x 1.5 hour sessions per week for 6 weeks
- Follow-up sessions at 4 and 12 weeks post program.
- Small group size – maximum 10 participants face to face, or 6 participants online

Suitably qualified Allied Health professionals deliver the program which aims to improve participants:

- functional capacity through education and management,
- ability to identify goals, overcome barriers, set boundaries, develop crisis management strategies and self-help routines.

Participants will be provided with:

- a work book: containing suitable exercises, relaxation strategies, stretching techniques, goals chart etc
- a list of resources and websites,

Their referring **GP** will receive a report describing the patient's progress to assist with follow-up and continued care.

Dates for the Programs

The programs are expected to run throughout the 2021-2022 financial year. Contact the Program Facilitator for program dates in your area.

How to refer patients
