HEALTHPATHWAYS ILLAWARRA SHOALHAVEN (HPWIS)

<https://illawarrashoalhaven.healthpathways.org.au>

Live site from 21 September 2015

OVERVIEW 1ST QUARTER 2016 (JAN – MAR)

PLANNED WORK FOR GP CLINICAL EDITORS

HPWIS is localising and publishing pathways in the following areas:

- ✓ Drug and Alcohol
- ✓ Cardiology
- ✓ Palliative Care
- ✓ Respiratory
- ✓ Sexual Health.

Areas scheduled for pathway development include:

- Women's Health
- Domestic & Family Violence
- Mental Health
- Aboriginal and Torres Strait Islander Health
- Neurology.

The development of referral/request information for all clinical streams will be ongoing and extend beyond the areas listed above.

Priority areas are determined by feedback and information from GPs, other primary health network sources and the local health district.

*39% of sessions are by ISLHD Health Professionals | Drop in usage coincides with weekends | January usually lowest level for usage

NEW & RETURNING USERS OF LIVE SITE

	Jan	Feb	Mar
New Users:	122	142	137
Returning Users:	67	83	101
Total of users:	189	225	238

Site promotion will increase once a *critical mass** of pathways are localised

* 170 localised pathways are considered a critical mass whereby a GP is likely to find a specific localised pathway(s) for the care of their patient

170 localised pathways are likely to be published by August 2016
