The National Diabetes Services Scheme (NDSS) is an initiative of the Australian Government administered by Diabetes Australia.

My Diabetes Emergency Plan

This plan helps you manage your diabetes in an emergency

Stress in an emergency or a natural disaster can raise or lower blood glucose to dangerous levels. There may be no medication or food available, and no way of getting medical help.

A Diabetes Emergency Plan helps you to self-manage your diabetes before, during and after an emergency. Planning ahead reduces the risk of diabetes-related infections and life-threatening situations.

This plan also lists important things to put in a Diabetes Emergency Kit to help you survive.

Keep this plan and your emergency kit together in a safe place and keep them up to date.

Emergency Kit Checklist

Prepare a portable, insulated diabetes emergency kit to take with you if you need to leave at short notice. It should contain the following:

Important Documents

☐ A list of your medical and surgery history
☐ A letter from your diabetes healthcare provider on your diabetes medication regimen
☐ A copy of your sick day management plan
☐ A copy of this completed plan

General Medical Supplies

☐ A 14 day supply of your prescription medication
☐ Non-prescription drugs such as aspirin, panadol, antacid, vitamins, or any others that you buy and use from over the counter
☐ A 3 day supply of bottled water per person
☐ A cooler bag with 4 refreezable cool packs or FRIO packs

Diabetes Specific Medical Supplies (depending on your regular diabetes management)

☐ A 14 day supply of your insulin and syringes or insulin pens
☐ Blood-glucose testing supplies, blood-glucose monitor and extra batteries, lancets and lancet device
☐ Empty sharps container
☐ Urine or blood ketone testing strips
☐ Hypoglycaemia kit containing jelly beans, glucose tablets, cans of sweet soft drink, glucagon kit, a supply of non-perishable foods (e.g. peanut butter, crackers, meal replacement shakes or bars)
☐ Cotton balls and tissues
☐ Alcohol swabs
☐ A pen and a notebook to record blood-glucose levels

Additional Items for Those on Insulin Pump Therapy

☐ Insulin pump settings and passwords
☐ Insulin pump cannulas (sites) and reservoirs
☐ A 14 day supply of syringes or insulin pens – in case of damage to your pump
☐ Spare batteries for insulin pump

Check the expiry date of your supplies

Update this plan at the start of every season.

Other Important Items for Your Emergency Kit

☐ Torch, extra batteries
☐ Lighter and candles
☐ Handheld radio
☐ First aid kit
☐ Whistle
☐ Mobile phone and extra charger
☐ Protective clothing
☐ Heavy duty gloves
☐ Protective eye wear
☐ Protective shoes
☐ Spare socks
