

# Information Sheet

## Education and Networking

COORDINARE has an ongoing commitment to providing education and networking opportunities to primary health care professionals across our region, supporting the delivery of evidence-based care, with a particular focus on improving care coordination for those most at risk of poor health outcomes.

### Education

As a RACGP QI & CPD program accredited provider, COORDINARE will deliver discipline-specific education for GPs, nurses, practice managers and allied health professionals with the aim of promoting safe, quality care that improves the experience and outcomes of patients, as well as reduce the costs of providing care.

To view and register for our upcoming education sessions please visit our Calendar of Events at [www.coordinare.org.au/events](http://www.coordinare.org.au/events).

### Networking

Networking with your peers and other health professionals can help you to establish linkages, leverage professional support as well as share resources and knowledge.

In addition to our calendar of education events, regular networking opportunities for your profession will also be available, including GP clusters and Practice Manager, Practice Nurse and Allied Health Professional workshops.

### GP Clusters

GPs are integral to a patient-focused, efficient health system as they are the central point of contact for all health care.

COORDINARE is committed to providing more opportunities for local GPs to have a greater say over issues that directly affect their ability to deliver safe, high quality and coordinated clinical services throughout the region.

This will be done by creating a series of 'GP Clusters' around the region that will meet regularly to identify issues, determining solutions and co-designing activities that will inform the annual plans of COORDINARE.

They will also provide GPs with opportunities to network with peers, access continuing professional development and have input into designing pathways that are efficient and easy to use.

# Information Sheet

These meetings will be resourced by a GP Cluster Leader, who will be a local GP paid to plan and facilitate the activities for their particular cluster. The GP Cluster Leader will also be a member of the Clinical Council which will advise the Board of COORDINARE.

For more information about GP Clusters in your region please contact [info@coordinare.org.au](mailto:info@coordinare.org.au) or phone 1300 069 002.

## **Clinical Council**

COORDINARE seeks to support general practices within South Eastern NSW region to improve health outcomes for primary care patients by enabling practices to provide high quality care that is comprehensive, person centred, population oriented, co-ordinated, accessible, safe and high quality.

COORDINARE will be establishing two Clinical Councils to create a critical three way communication mechanism between the Board, the executive team and general practitioners within the South Eastern NSW region. Members of the Councils will provide expert input and feedback into planning service responses at both a practice and population health level, as well as in relation to other issues that are important to them. They will also contribute to decision making as to how models of care can support the integration of primary, secondary and tertiary services to allow a more streamlined continuum of care within South Eastern NSW.

## **Practice Managers networking**

Discussions are currently underway between COORDINARE, local practice managers and the Australian Association of Practice Management regarding the organisation of future networking events. If you would like to register your interest please contact COORDINARE on [info@coordinare.org.au](mailto:info@coordinare.org.au)

## **Practice Nurse networking**

Discussions are currently underway between COORDINARE, local practice nurses and the Australian Primary Health Care Nurses Association (APNA) regarding the organisation of future networking events. If you would like to register your interest please contact COORDINARE on [info@coordinare.org.au](mailto:info@coordinare.org.au)

## **Allied health networking**

These meetings offer collaborative learning for allied and other health providers, together with general practices and community organisations.

For the Shoalhaven region more information can be found through LinkedIn and Facebook at:  
<http://au.linkedin.com/pub/shoalhaven-allied-health-networking/98/79/119>  
<https://www.facebook.com/pages/Shoalhaven-Allied-Health-Networking/994812643867021>

## EDUCATION AND TRAINING PROVIDERS

The following is a list of organisations that provide professional development for GPs, practice nurses and practice staff. This may include online modules, face-to-face workshops, many of which are local, or webinars. In coming months a more detailed training calendar of local and regional events will be available.
